ABOUT THE BAND

Playing every gig like the stadium is sold out.

Kings of Leon guitars. Coldplay choruses. Cargo bike budget.

They recorded in a mosquito-filled garden shed in Poznań. They cycled 1000 km to Montpellier on cargo bikes, played shows on solar power and raised money for four charities. Daan, Lieven Scheire and Bert De Backer backed the ride. They opened for De Mens and played Les Estivales in Montpellier.

In May 2026 they recorded the EP **Little Traveller** at Number Nine Studios with producer Ian Clement. First single **Babylon** launches The Babylon Project: their mission to bring people back together.

Live, four close friends stand shoulder to shoulder and sweat for ten.
